

Project Execution Phase

Datasets

Date	27 June 2025
Team ID	LTVIP2025TMID29772
Project Name	GARAGE MANAGEMENT SYSTEM

Datasets:

A dataset is a structured collection of related data that is organized in rows and columns for easy processing, analysis, and testing. In the context of the Garage Management System (GMS), datasets represent the sample records created for customers, appointments, services, billing, and feedback, which are stored in different Salesforce objects.

Purpose of Datasets in This Project:

- To test how the system handles and displays real-time data.
- To validate automation like triggers, flows, and email alerts.
- To generate meaningful reports and dashboards.
- To simulate real-life user interactions and service workflows.

Customer Details Dataset:

	Customer Details Name	
1	<input type="checkbox"/> Sai Neeraj	
2	<input type="checkbox"/> Ram	
3	<input type="checkbox"/> Sita	
4	<input type="checkbox"/> Shailu	
5	<input type="checkbox"/> Dhruv	
6	<input type="checkbox"/> Vamsi Anand	
7	<input type="checkbox"/> Rakesh	
8	<input type="checkbox"/> Rupas	
9	<input type="checkbox"/> Vijaya	
10	<input type="checkbox"/> Ramya

Billing & Feedback Dataset:

The screenshot displays a web application interface for a 'Garage Management System'. The top navigation bar includes a search bar and several icons. The main menu is located below the search bar, with 'Billing details and feedbacks' selected. The page title is 'Billing details and feedbacks', and the view is set to 'Recently Viewed'. The table shows 8 items, each with a checkbox and a 'Billing details and feedback Name' column. The items are listed in descending order of their ID.

	<input type="checkbox"/>	Billing details and feedback Name	
1	<input type="checkbox"/>	bill-008	
2	<input type="checkbox"/>	bill-007	
3	<input type="checkbox"/>	bill-006	
4	<input type="checkbox"/>	bill-005	
5	<input type="checkbox"/>	bill-004	
6	<input type="checkbox"/>	bill-003	
7	<input type="checkbox"/>	bill-002	
8	<input type="checkbox"/>	bill-001	

Summary:

A dataset is a group of sample entries created to represent actual records used in the Garage Management System, enabling testing, validation, and presentation of the project's functionality.
